INDEX TO VOLUME 76

Adams, W. E. The blood supply of nerves. I. Historical review, 323
Adrenal cortex of the white rat, age and sex variations in the fat. By C. E. Tobin and R. Whitehead, 342
Adrenal cortical compounds, variations in organ size caused by chronic treatment. By H. Selye, 94
Age and sex variation in the fat of the adrenal cortex of the white rat. By C. E. Tobin and R. Whitehead, 342
Alligator, American; vascularization in the brain. By E. Horne Craigie, 347
Amoroso, E. C., Barclay, A. E., Franklin, K. J. and Prichard, M. M. L. The bifurcation of the posterior caval channel in the eutherian foetal heart, 240
Amoroso, E. C., Franklin, K. J. and Prichard, M. M. L. Observations on the cardio-vascular system and lungs of an African elephant foetus, 100
Amoroso, E. C., Griffiths, W. F. B. and Hamilton, W. J. The early development of the goat (*Capra hircus*), 377
Anatomy as seen in the hand. By F. Wood Jones. Review, 407

Barclay, A. E. *See* Amoroso, E. C., Franklin, K. J. and Prichard, M. M. L., joint authors, 240
Bellairs, A. Observations on Jacobson's organ and its innervation in *Vipera berus*, 167
Blood lymphocytes, enterectomy. By J. M. Yoffey, 214
Blood supply of nerves. By W. E. Adams, 323
Bone formation in vitro, the role of mechanical stresses. By A. Glucksmann, 231
Boyd, J. D. The nerve supply of the branchial arch arteries in *Vipera berus*, 248
Brains of reptiles, vascularization. By E. Horne Craigie, 347
Branchial arch arteries, nerve supply. By J. D. Boyd, 248

Capillary bed of the central nervous system in a member of a second genus of Gymnophiona—*Siphonops*. By E. Horne Craigie, 56
Cardio-vascular system and lungs of an African elephant foetus. By E. C. Amoroso, K. J. Franklin and M. M. L. Prichard, 100
Carleton, A. A comparative study of the inferior tibio-fibular joint, 45
Cell columns in the ventral horn of the cervical and upper thoracic spinal cord of the rabbit. By G. J. Romanes, 112
Clark, W. E. Le Gros. The lateral geniculate body in the platyrrhine monkeys, 131
— The Meynert cells of the visual cortex in the Macaque monkey, 369
Conducting tissue in the heart of the golden hamster. By E. W. Walls, 359
Craigie, E. Horne. The capillary bed of the central nervous system in a member of a second genus of Gymnophiona—*Siphonops*, 56
— Vascularization in the brains of reptiles. IV. Quantitative studies in the American alligator, 347
Cutaneous nerve fibres, early stages in the degeneration. By G. Weddell and P. Glees, 65

Development of the goat. By E. C. Amoroso, W. F. B. Griffiths and W. J. Hamilton, 377

Drinker, C. K. and Yoffey, J. M. Lymphatics, Lymph and Lymphoid Tissue. Review, 409

Elephant foetus, African, observations on the cardio-vascular system and lungs. By E. C. Amoroso, K. J. Franklin and M. M. L. Prichard, 100
Embryo, presomite human, with special reference to the development of the vascular system. By R. J. Gladstone and W. J. Hamilton, 9
— presomite human. The implantation. By W. J. Hamilton and R. J. Gladstone, 187
Enterectomy and the blood lymphocytes. By J. M. Yoffey, 214

Facialis musculature in monotremes. By G. S. Lightoller, 258
Fenner, F. The mid-dorsal hair-whorl in an Australian of European ancestry, 356
Foetal heart (eutherian), bifurcation of the posterior caval channel. By E. C. Amoroso, A. E. Barclay, K. J. Franklin and M. M. L. Prichard, 240
Foot, hind, of *Youngina*. By E. S. Goodrich, 308
Franklin, K. J. *See* Amoroso, E. C. and Prichard, M. M. L., joint authors, 100
— *See* Amoroso, E. C., Barclay, A. E. and Prichard, M. M. L., joint authors, 240

Gladstone, R. J. *See* Hamilton, W. J., joint authors, 187
Gladstone, R. J. and Hamilton, W. J. A presomite human embryo, with special reference to the development of the vascular system, 9
Glees, P. The termination of optic fibres in the lateral geniculate body of the rabbit, 313
— *See* Weddell, G., joint authors, 65
Glucksmann, A. The role of mechanical stresses in bone formation in vitro, 231
Goat, early development. By E. C. Amoroso, W. F. B. Griffiths and W. J. Hamilton, 377
Golden hamster, living eggs. By D. M. Samuel and W. J. Hamilton, 204
— specialized conducting tissue in the heart. By E. W. Walls, 359
Goodrich, E. S. The hind foot of *Youngina* and the fifth metatarsal in reptilia, 308
Grafted nerves, degeneration and re-innervation. By F. K. Sanders and J. Z. Young, 143
Gray, James Hugo. In Memoriam, 319
Griffiths, W. F. B. *See* Amoroso, E. C. and Hamilton, W. J., joint authors, 377

Haines, R. Wheeler. The tetrapod knee-joint, 270
Hair-whorl, mid-dorsal, in an Australian of European ancestry. By F. Fenner, 356
Hamilton, W. J. *See* Gladstone, R. J., joint authors, 9
— *See* Samuel, D. M., joint authors, 204
— *See* Amoroso, E. C. and Griffiths, W. F. B., joint authors, 377
Hamilton, W. J. and Gladstone, R. J. A presomite human embryo (Shaw). The implantation, 187
Heart of the golden hamster, specialized conducting tissue. By E. W. Walls, 359

In Memoriam. James Hugo Gray, 319

Jacobson's organ and its innervation in *Vipera berus*. By A. Bellairs, 167
Joint, inferior tibio-fibular, comparative study. By A. Carleton, 45

Joint, tetrapod knee. By R. Wheeler Haines, 270

Knee-joint, tetrapod. By R. Wheeler Haines, 270
Krieg, W. J. S. Functional Neuro-anatomy. Review, 408
Krogman, W. H. A Bibliography of Human Morphology. Review, 141

Lateral geniculate body in the platyrrhine monkeys. By W. E. Le Gros Clark, 131
Lateral geniculate body of the rabbit, termination of optic fibres. By P. Glees, 313
Living eggs of the golden hamster (*Cricetus auratus*). By D. M. Samuel and W. J. Hamilton, 204
Lightoller, G. S. Matrices of the facialis musculature; homologization of the musculature in monotremes with that of marsupials and placentals, 258
Lymphatics, Lymph and Lymphoid Tissue. By C. K. Drinker and J. M. Yoffey. Review, 409

Macaque monkey, Meynert cells of the visual cortex. By W. E. Le Gros Clark, 369
Mechanical stresses in bone formation in vitro. By A. Glucksmann, 231
Metatarsal, fifth, in reptilia. By E. S. Goodrich, 308
Meynert cells of the visual cortex in the Macaque monkey. By W. E. Le Gros Clark, 369
Microglia in the neurohypophysis. By E. Vasquez-Lopez, 178
Musculature in monotremes homologized with that of marsupials and placentals. By E. S. Lightoller, 258

Nerve supply of the branchial arch arteries in *Vipera berus*. By J. D. Boyd, 248
Nerves, blood supply. By W. E. Adams, 323
Neurohypophysis, existence of microglia. By E. Vasquez-Lopez, 178

Optic fibres, termination in the lateral geniculate body of the rabbit. By P. Glees, 313

Platyrrhine monkeys, the lateral geniculate body. By W. E. Le Gros Clark, 131
Posterior caval channels in eutherian foetal heart, bifurcation. By E. C. Amoroso, A. E. Barclay, K. J. Franklin and M. M. L. Prichard, 240
Prichard, M. M. L. *See* Amoroso, E. C. and Franklin, K. J., joint authors, 100
— *See* Amoroso, E. C., Barclay, A. E. and Franklin, K. J., joint authors, 240
Proceedings of the Anatomical Society of Great Britain and Ireland, July 1941, 221
Progesterone, effect of the method of administration on the morphogenetic actions. By Helen Winter, 209

Reptilia, fifth metatarsal in. By E. S. Goodrich, 308
Romanes, G. J. The development and significance of the cell columns in the ventral horn of the cervical and upper thoracic spinal cord of the rabbit, 112

Samuel, D. M. and Hamilton, W. J. Living eggs of the golden hamster (*Cricetus auratus*), 204
Sanders, F. K. and Young, J. Z. The degeneration and re-innervation of grafted nerves, 143
Selye, H. Variations in organ size caused by chronic treatment with adrenal cortical compounds. An example of a dissociated adaptation to a hormone, 94
Siphonops, capillary bed of the central nervous system. By E. Horne Craigie, 56
Spinal cord of the rabbit (cervical and upper thoracic); the development and significance of the cell columns in the ventral horn. By G. J. Romanes, 112
Stern, K. Thalamo-frontal projection in man, 302

Thalamo-frontal projection in man. By K. Stern, 302
Tobin, C. E. and Whitehead, R. Age and sex variations in the fat of the adrenal cortex of the white rat, 342

Vascularization in the brains of reptiles. IV. Quantitative studies in the American alligator. By E. Horne Craigie, 347
Vasquez-Lopez, E. The existence of microglia in the neurohypophysis, 178
Vipera berus, observations on Jacobson's organ and its innervation. By A. Bellairs, 167
— — nerve supply of the branchial arch arteries. By J. D. Boyd, 248
Visual cortex of the Macaque monkey; Meynert cells. By W. E. Le Gros Clark, 369

Walls, E. W. Specialized conducting tissue in the heart of the golden hamster, 359
Weddell, G. and Glees, P. The early stages in the degeneration of cutaneous nerve fibres, 65
Whitehead, R. *See* Tobin, C. E., joint authors, 342
Wilson, J. T. Biographical sketch, 1
Winter, Helen. The effect of the method of administration on the morphogenetic actions of progesterone, 209
Wood Jones, F. The Principles of Anatomy as Seen in the Hand. Review, 407

Yoffey, J. M. Enterectomy and the blood lymphocytes, 214
— *See* Drinker, C. K. Review, 409
Young, J. Z. *See* Sanders, F. K., joint authors, 143
Youngina, hind foot. By E. S. Goodrich, 308

CAMBRIDGE: PRINTED BY W. LEWIS, M.A., AT THE UNIVERSITY PRESS
